ELSEVIER

Bone Vol. 30, No. 6
June 2002:954–960

# SUBJECT INDEX
# Bone, Volume 30, 2002

**A3 subunit**
*TCIRG1* gene mutations in infantile malignant osteopetrosis, 436
**Acidification**
osteoclasts, during bone resorption, 533
**Activity survey**
mechanical loading on bones estimation, 787
**Adolescents**
bone mineral content and milk consumption in, Chinese girls, 521
25-hydroxyvitamin D status in, 771
physical activity effects on bone mineral density, 792
**Aging**
bone mineral content/density changes, male rats, 125
microdamage accumulation in bone and, dogs, 201
osteocyte density, during bone remodeling, 859
zone-dependent trabecular bone loss and, 664
**Alendronate**
insulin-like growth factor-1 and, effects on bone mineral density during puberty, mice, 909
**Alfacalcidol**
bone resorption inhibition effects, comparison with ED-71, 582
**Alkaline phosphatase**
p38 MAP kinase effects on, in osteoblast cell differentiation, 91
poly(2-hydroxyethyl) methacrylate and, osteoblast adherence on calcospherites and, 152
**Allograft**
transplantation, vitamin $_{D3}$ effects on, 422
**Aluminum fluoride**
insulin-like growth factor upregulation and, 705
**Alveolar bone**
parathyroid hormone-related protein effects on tooth development, 48
**American College of Sports Medicine**
general introduction, symposium, 780
summary of symposium, 805
symposium at 47th annual meeting, 779
**Androgen receptor**
expression in growth plate and metaphyseal bone, gender differences in, rats, 891
**Ankle fracture**
predictors in postmenopausal women, 238
**Apoptosis**
bone remodeling and, 2
2-methyoxyestradiol effects on in osteosarcoma and, 393
**Arthritis**
septic, *Staphylococcus aureus* collagen adhesin and, 275
type II collagen-induced, trabecular bone turnover during, mice, 872

**Back muscles**
strength, vertebral fracture incidence, postmenopausal women, 836
**Bicondylar angle**
development of, in hominid bipedalism, 765
**Bicycling**
mountain/road, bone mineral density, 281
**Biochemical analysis**
ovariectomy effects on bone-implant integration, 131
**Biochemical markers**
age- and gender-related differences, Chinese men and women, 412
bone turnover, feeding effects on, 886
glucocorticoid-induced osteopenia, 924
**Biomechanical strength**
bone morphogenetic protein-2-coated titanium implants and, 816
**Biomechanical stress**
effects on bones, in animals, 781
**Biomimesis**
tissue engineering and, 810
**Bipedalism**
hominid, femoral bicondylar angle development in, 765
**Bisphosphonates**
actions on osteoclast precursors, 64
bone mineral density recovery and, 195
ibandronate effects on tumor-associated lesions effects on bone density/strength, 300
**Bone**
aging and microdamage accumulation in, dogs, 201
biomechanical stress effects, in animals, 781
breast cancer metastasis to, parathyroid hormone-related protein and, 670
layered appearance of, comparison with cementum, 386
mechanical properties, in zebrafish, 541
mid-region parathyroid hormone fragments, skeletal tissue effects, 78
**Bone allograft transplantation**
vitamin $D_3$ effects on, 422
**Bone density**
osteosclerosis and myelofibrosis syndrome, case reports and literature review, 498
ultrasonic characterization using backscatter measurements, 229
**Bone destruction**
in rheumatoid arthritis, NF-κB and tumor necrosis factor-α effects, 340
**Bone development**
caffeine and exercise effects on, densitometry and histomorphometric study, 293
fetal, histomorphometric analysis, 823
**Bone fatigue**
micro damage, bone remodeling and, 8
**Bone formation**
by bone morphogenetic protein, rolipram effects on, 589
circadian variation mechanisms in, 307
regulation in metaphyses, 486
ΔFosB regulation effects on, 32
**Bone fragility**
aging and microdamage accumulation in bone and, dogs, 201
**Bone growth**
epiphyseal fusion and, Perspectives, 337
**Bone infection**
*Staphylococcus aureus* collagen adhesin and osteomyelitis and, 275
**Bone lamellae**
elastic properties of, 178
**Bone loss**
after ovariectomy, cimetidine effects, rats, 131
age-related changes in bone mineral content/density and, male rats, 125
bisphosphonate and estrogen therapy effects on, 195
ovariectomy-induced, vitamin K supplementation effects, rats, 897
polycyclic aromatic hydrocarbons in cigarette smoke effects on, ovariectomized rat, 917
spontaneous, years of menopause and, 637
trabecular, mechanical consequences and treatment of, 404
trabecular bone, zone-dependent loss of, 664
**Bone marrow**
culture, platelets effects on osteoclast formation and, 726
fat cell changes, in osteonecrosis, 185
thyroid status effects on mast cell distribution in, 259

8756-3282/02/$22.00
PII S8756–3282(02)0028–3

**Bone mass**
daughters of women with osteoarthritis, 287
ibandronate pharmacokinetics in, in postmenopausal osteoporosis, 320
mechanical strain effects on, physical activity questionnaire for measurement of, 799
mountain/road cyclists, 281
peak, determinants of, young women, 416
ΔFosB regulation effects on, 32
**Bone mechanics**
growth/differentiation factor-5 deficiency effects on femoral composition and mechanical behavior, 733
**Bone metabolism**
biochemical markers and, age- and gender-related differences, Chinese men and women, 412
markers of, during glucocorticoid treatment in chronic glomerulonephritis, 853
**Bone microarchitecture**
cancellous, 829
three-dimensional, changes caused by ovariectomy and neurectomy, 594
trabecular, surface curvatures of, 191
ultrasonic characterization using backscatter measurements, 229
**Bone mineral content**
age-related changes in, male rats, 125
dual-energy x-ray absorptiometry determination accuracy in humeri, 243
milk consumption and, Chinese adolescent girls, 521
ovariectomy and nandrolone decanoate effects, monkeys, 492
**Bone mineral density (BMD)**
after raloxifene/estrogen therapy discontinuation, 5-year treatment, postmenopausal women, 599
age- and gender-related differences, Chinese men and women, 412
age-related changes in, male rats, 125
bisphosphonate and estrogen therapy effects on recovery of, 195
calcium-sensing receptor gene A986S polymorphism and, postmenopausal women, 849
dual-energy x-ray absorptiometry determination accuracy in humeri, 243
estrogen receptors-β regulatory role in bone remodeling and, 18
etidronate effects after orchidectomy/neurectomy, 360
insulin-like growth factor-1 and alendronate effects during puberty, mice, 909
mortality and, elderly men and women, 643
mountain and road cyclists, 281
physical activity effects on, adolescents, 792
predictions of, lower extremity muscle strength and, aging adults, 515
quantitative computed tomography and DXA measurement in vertebral fracture, 247
**Bone morphogenetic factor**
growth/differentiation factor-5 deficiency effects on femoral composition and, 733
**Bone morphogenetic protein**
bone formation by, rolipram effects, 589
**Bone morphogenetic protein-2**
cortisol and, stromal cell differentiation effects, 685
osteoinductive signals and, 26
titanium implants coated, biomechanical strength and bone remodeling in fracture effects, 816
**Bone regeneration**
biomimesis in tissue engineering and, 810
**Bone remodeling**
bone morphogenetic protein-2-coated titanium implants and, 816
calcitonin, background and review, 655
cortical, microdamage and, 8
estrogen receptors-β regulatory role in females, 18
instruments for, 5
multicellular unit origination/progression and, 5
osteoclast acidification during bone resorption and, 533
purposes of, 5
targeted and nontargeted, 2
trabecular bone, bone vascularization and, 604
**Bone replacement**
bone remodeling and, 5
**Bone resorption**
abnormal osteoclasts in lysosomal storage disease and, 352
bisphosphonate suppression of, 64
cathepsin K prevention of, ovariectomized rat, 746
circadian variation mechanisms in, 307
ED-71 inhibition of in osteoporosis, comparison with alfacalcidol, 582
etidronate effects after orchidectomy/neurectomy, 360
osteoclast formation and, prostaglandin EP4 receptor antagonist effects on, 159
osteoclastic, interleukin-18 and interleukin-12 inhibition of, 901
osteoclastic acidification pathways during, 533
osteopontin posttranslational modifications and, 40
**Bone status**
modifiable determinants of, young women, 416
**Bone strength**
tumor-associated lesions effects, ibandronate effects, 300
vertebral, vertebral static histomorphometry predictions of, 502
**Bone turnover**
cancellous *vs.* cortical bone, Perspective, 807
circadian variation mechanisms in, 307
ibandronate pharmacokinetics in, in postmenopausal osteoporosis, 320
markers, feeding effects on, 886
trabecular, during collagen-induced arthritis development, mice, 872
**Bone vascularization**
trabecular bone remodeling and, 604
**Bone volume**
regulation in metaphyses, 486
**Bone-implant integration**
ovariectomy effects on, 131
**Breast cancer**
metastasis to bone, parathyroid hormone-related protein and, 670
**Brittleness**
mechanical properties of skeleton bone and, in zebrafish, 541

**Caffeine**
bone development and, densitometric and histomorphometric study, 293
**Calcitonin**
background and review of, 655
**Calcium**
circadian variation mechanisms in bone resorption and, 307
**Calcium-sensing receptor**
phospholipase C-γ1 activation in osteoblasts and, 559
**Calcium-sensing receptor gene A986S**
polymorphism of, bone mineral density and, postmenopausal women, 849
**Calcospherites**
osteoblast adherence on, 152
**Callus formation**
growth hormone effects on, 117
**Cancellous bone**
apparent mechanical properties, in hip fracture, 759
mechanical strain anabolic to, 445
turnover in, comparison with cortical bone, Perspective, 807
ultrasonic characterization of, 229
vertebral, microarchitecture of, 829
**Cartilage**
mid-region parathyroid hormone fragments, skeletal tissue effects, 78
**Cathepsin K**
bone resorption prevention and, ovariectomized rat, 746
**Cbfa1**
RANKL activity effects in stromal/osteoblastic cells, 453
**cDNA microarrays**
discovery of osteoblast-associated genes and, 463

Bone Vol. 30, No. 6
June 2002:954–960

**Cell differentiation**
stem cells from bone and, 699
**Cementifying fibroma**
cell line establishment, 712
**Cementum**
layered appearance of, comparison with bone, 386
**Chemistry, materials**
biomimesis in tissue engineering, 810
**Chemotactic migration**
in osteoblasts, vascular endothelial growth factor effects on, 472
**Chondrocyte cultures**
17β-estradiol production regulation by $1\alpha,25(OH)_2D_3$ and, 48
**Chondrocytes**
estrogen receptor α/β expression in growth plate and, rat, 478
**Cigarette smoke**
polycyclic aromatic hydrocarbons in, bone loss effects, ovariectomized rat, 917
**Cimetidine**
bone loss after ovariectomy, rats, 131
**Circadian variation**
mechanisms of, in bone resorption, 307
osteocalcin, hypercorticism effects on, 428
**Collagen adhesin**
*Staphylococcus aureus,* contribution to osteomyelitis pathogenesis, 275
**Collagen gene, type I**
polymorphism, fracture risk in postmenopausal women and, 223
**Computed tomography, peripheral quantitative**
bone mineral density measurement in vertebral fracture, 247
cancellous bone microarchitecture, 829
**Connective tissue**
smooth muscle actin expression in, fracture healing and, 738
**Cortical bone**
adaptive response to mechanical strain, growth rate effects, 314
aging and microdamage accumulation in, dogs, 201
fatigue damage-fracture mechanics interaction in, 509
femoral mechanical strength and, bone properties at lower limb and distal radius as predictor of, 207
MPC-11 myeloma effects on, 109
remodeling of, microdamage and, 8
turnover in, comparison with cancellous bone, Perspective, 807
**Corticosteroids**
bone marrow fat cell changes in osteonecrosis and, 185
for renal failure, growth plate alterations and, 692
**Cortisol**
bone morphogenetic protein-2 and, stromal cell differentiation effects, 685
**Creatine kinase**
mid-region parathyroid hormone fragments, skeletal tissue effects, 78
**Cyclooxygenase-2**
platelets effects on osteoclast formation and, 726
**Cyclosporine A**
bone allograft transplantation, vitamin $D_3$ effects on, 422
**Cytokine production**
pressure and particles in macrophage activation and, periprosthetic osteolysis role, 171

**Densitometry**
caffeine and exercise effects on bone development, 293
zone-dependent trabecular bone loss and, 664
**Dentin sialophosphoprotein**
tooth development and, 377
**1,25-Dihydroxyvitamin D levels**
Langerhans' cell granulomatosis and, hypercalcemia in, 331
**Dual-energy x-ray absorptiometry (DXA)**
bone mineral content/density determination accuracy and precision in humeri, 243
bone mineral density measurement in vertebral fracture, 247

**ED-71**
bone resorption inhibition effects, comparison with alfacalcidol, 582
**Elastic modulus**
bone lamellae and, 178
**Elderly patients**
bone mineral density and mortality and, 643
**EP2 receptor**
gene expression in osteoblastic cells and, 567
**EP4 receptor**
osteoclast formation and bone resorption effects, 159
**Epidemiology**
Paget's disease of bone, geographic variations in occurrence, Letter, 649
**Epiphyseal fusion**
growth cessation and, Perspectives, 337
**Epiphyseal plate**
estrogen receptor α/β expression in, rat, 478
**Estradiol**
osteoblast and osteoclast activity and, 368
**17β-Estradiol**
production, regulation by $1\alpha,25(OH)_2D_3$, 48
**Estrogen**
mid-region parathyroid hormone fragments, skeletal tissue effects, 78
**Estrogen receptor β**
regulatory role in bone remodeling, females, 18
**Estrogen receptor α/β**
expression in epiphyseal plate, rat, 478
**Estrogen therapy**
bone mineral density after 1 year after discontinuation of, postmenopausal women, 599
bone mineral density recovery and, 195
low-potency, hip fracture risks and, 613
**Etidronate**
bone effects, after orchidectomy/neurectomy, 360
**Exercise**
bone development and, densitometric and histomorphometric study, 293
bone effects of, 781
bone mineral density effects, adolescents, 792
radius adaptation to unilateral use in tennis playing, 619
**Extracellular signal-regulated kinase**
osteoclast differentiation and, 71

**Fat cells**
bone marrow, changes in osteonecrosis and, 185
**Fatigue damage**
fracture mechanics and, in cortical bone, 509
**Femoral bicondylar angle**
development of, in hominid bipedalism, 765
**Femoral neck cortex**
osteocytic endothelial nitric oxide synthase expression patterns in, 866
**Femur**
development of, 765
mechanical strength of, bone properties at lower limb and distal radius as predictor of, 207
**Fetus**
bone development, histomorphometric analysis, 823
**Finite element model**
trabecular bone loss, mechanical consequences and treatment of, 404
**Fluoroaluminate**
insulin-like growth factor upregulation and, 705
osteoblasts and, 99
**ΔFosB regulation**
bone mass/formation effects, 32
**Fracture healing**
growth hormone effects on callus formation, 117
smooth muscle actin expression in connective tissue cells, 738
**Fracture mechanics**
fatigue damage and, in cortical bone, 509
**Fractures**
ankle, predictors in postmenopausal women, 238

hip, risks of, low-potency estrogen effects on, 613
osteoporotic, antiresorptive therapy effects on, Perspective, 14
osteoporotic, 10-year risk of, screening strategies and, 251
risk in postmenopausal women, type I collagen gene polymorphism and, 223
vertebral, back muscle strength effects on incidence of, postmenopausal women, 836

**Genetic heterogeneity**
in otosclerosis, 624
**Genetic regulation**
bone volume, in metaphyses, 486
**Glomerulonephritis**
chronic, osteoprotegerin and bone metabolism markers during glucocorticoid treatment in, 853
**Glucocorticoids**
osteopenia induced by, histomorphometry, tomography, and biochemical marker analysis, 924
**Glucose**
circadian variation mechanisms in bone resorption and, 307
**Granulocyte colony-stimulating factor**
induction of osteopenia, vitamin K2 preventive effects, 880
**Gravity**
vector-averaged, RANKL and osteoprotegerin regulation and, 553
**Growth**
cessation of, epiphyseal fusion and, Perspectives, 337
**Growth factors**
osteotomy healing accelerative effects, 144
**Growth hormone**
callus formation effects, 117
**Growth plate**
alterations in, corticosteroid therapy for renal failure, 692
chondrocyte volume increase during hypertrophy, 574
estrogen receptor α and β expression in, rat, 478
tibial, androgen receptor expression in, gender differences, rats, 891
**Growth rate**
adaptive response to mechanical strain and, 314
**Growth/differentiation factor-5 deficiency**
femoral composition and mechanical behavior effects, 733

**Health care costs**
osteoporosis in men, 631
**Hematopoietic progenitor**
osteoclast generation and, 164
**Hip fracture**
apparent mechanical properties in cancellous bone, 759
osteocytic endothelial nitric oxide synthase expression patterns in femoral neck cortex, 866
risk of, low-potency estrogen effects on, 613
supporting muscle changes in, elderly women, 325
**Histomorphometry**
caffeine and exercise effects on bone development, 293
fetal bone development, 823
glucocorticoid-induced osteopenia, 924
iliac crest and vertebral body, 267
osteosclerosis and myelofibrosis syndrome, case reports and literature review, 498
ovariectomy effects on bone-implant integration, 131
vertebral static, vertebral bone strength predictions, 502
zone-dependent trabecular bone loss, 664
**Hormone replacement therapy**
years of menopause and, 637
**Humerus**
bone mineral density/content, dual-energy x-ray absorptiometry determination accuracy/precision, 243
**25-Hydroxyvitamin D**
status in adolescents and adults, 771
**Hypercalcemia**
Langerhans' cell granulomatosis, 1,25-dihydroxyvitamin D levels and, 331
**Hypercorticism**
circadian variations in osteocalcin and, 428
**Hypertrophy**
growth plate chondrocyte increasing during, 574
**Hypophysectomy**
estrogen receptor α/β expression in growth plate and, rat, 478
**Hypothyroidism**
mast cell distribution in bone marrow and, 259

**Ibandronate**
pharmacokinetics of, bone mass/turnover in postmenopausal osteoporosis and, 320
tumor-associated lesions effects on bone density and strength and, 300
**Iliac crest**
static histomorphometry, comparison with vertebral body, 267
**Image analysis, 3D**
trabecular bone microarchitecture, 191
**Immunohistochemistry**
estrogen receptor α/β expression in growth plate and, rat, 478
**Insulin**
circadian variation mechanisms in bone resorption and, 307
**Insulin-like growth factor**
upregulation, fluoroaluminate and aluminum fluoride and, 705
**Insulin-like growth factor-1**
alendronate and, effects on bone mineral density during puberty, mice, 909
osteotomy healing accelerative effects, 144
**Interferon gene**
expression, 2-methyoxyestradiol effects on in osteosarcoma and, 393
**Interleukin-1**
MPC-11, cortical bone effects, 109
**Interleukin-6**
expression in bone samples, postmenopausal women, 217
**Interleukin-12**
osteoclastic bone resorption inhibition and, 901
**Interleukin-18**
osteoclastic bone resorption inhibition and, 901
**Interleukin-1β actions**
mechanical strain and, in periodontal ligament cells, 547
**Interleukin-6 receptor**
expression in bone samples, postmenopausal women, 217
**Ion transporters**
osteoclast acidification during bone resorption and, 533

**Joint infection**
*Staphylococcus aureus* collagen adhesin and osteomyelitis and, 275

**Langerhans' cell granulomatosis**
1,25-dihydroxyvitamin D levels and, hypercalcemia in, 331
**Letter to the Editor,** 649
**Lower extremity**
muscle strength, femur bone mineral density predictions and, aging adults, 515
**Lysosomal storage disease**
abnormal osteoclasts in, 352

**Macintyre, Iain**
tribute to, Review Article, 655
**Macrophage colony-stimulating factor**
malignant infantile osteopetrosis and, 85
**Macrophages**
activation, pressure and particles in, periprosthetic osteolysis and, 171
osteoclast generation and, 164
osteoinductive signals and bone morphogenetic protein-2, 26
**Mast cells**
distribution in bone marrow, thyroid status effects on, 259

Bone Vol. 30, No. 6
June 2002:954–960

**Mechanical loading**
bone remodeling and, 2
on bones, activity surveys for estimation of, 787
osteoblastic cell, characteristics of, 347
**Mechanical properties**
apparent, cancellous bone, in hip fracture, 759
skeletal bone, in zebrafish, 541
**Mechanical strain**
adaptive response to, growth rate effects on, 314
anabolic to cancellous bone, 445
effects on bone mass, physical activity questionnaire for measurement of, 799
IL-1β actions and, in periodontal ligament cells, 547
**Mechanical strength**
femoral, bone properties at lower limb and distal radius as predictor of, 207
**Menatetrenone**
granulocyte colony-stimulating factor-induced osteopenia prevention and, 880
**Menopause**
hormone replacement therapy and, 637
osteoporosis, age for prevention of, 754
years of, spontaneous bone loss and, 637
**Metabolic disease**
abnormal osteoclasts in lysosomal storage disease and, 352
**Metaphyseal bone**
androgen receptor expression in, gender differences, rats, 891
**Metaphyses**
femur/vertebral, bone volume regulation in, 486
**2-Methyoxyestradiol**
interferon gene expression and apoptosis in osteosarcoma and, 393
**Microdamage**
cortical bone remodeling and, 8
**Milk consumption**
bone mineral content and, Chinese adolescent girls, 521
**Mineralization**
bone and cementum, comparison study, 386
**Mitogen-activated protein (MAP)**
p38, alkaline phosphatase in osteoblast cell differentiation and, 91
**Morphometry**
cancellous bone microarchitecture, 829
**Mortality**
bone mineral density and, elderly men and women, 643
**MPC-11 myeloma**
bone properties effects, 109
**Muscle**
supporting, changes after hip fracture, elderly women, 325
**Muscle strength**
lower extremity, femur bone mineral density predictions and, aging adults, 515
**Myelofibrosis**
osteosclerosis and, case reports and literature review, 498

**Nandrolone decanoate**
bone mineral composition effects, monkeys, 492
**Nanoindentation**
elastic properties of bone lamellae and, 178
**Neurectomy**
etidronate effects on bone in, rats, 360
trabecular bone microstructure changes caused by, 594
**Nitric oxide synthase**
osteocytic endothelial, expression patterns in femoral neck cortex, 866
**Nmp4 protein**
osteoblast intracellular localization of, 931
**Nuclear factor-κB**
bone destruction in rheumatoid arthritis and, 340
malignant infantile osteopetrosis and, 85
receptor activator of, prostaglandin $E_2$ effects on gene expression in osteoblastic cells, 567
**Nutritional status**
hypercorticism effects on circadian variations in osteocalcin and, 428

**Orchidectomy**
etidronate effects on bone in, rats, 360
**Osmolytes**
organic, growth plate chondrocyte volume increase during hypertrophy and, 574
**Osteitis deformans**
clinical severity of, 399
**Osteoarthritis**
hip bone mass in daughters of women with, 287
osteoporosis and, bone mass in daughters of women with, 287
**Osteoblasts**
activity, raloxifene effects on, 368
adherence on calcospherites, 152
cell differentiation, p38 MAP kinase and alkaline phosphatase expression during, 91
fluoroaluminate effects on, 99
intracellular localization of Nmp4 proteins, 931
maturation, cDNA microarrays and, 463
mechanical loading and, characteristics of, 347
neonatal, parathyroid hormone induction of RGS-2 expression in, 677
parathyroid hormone-related protein effects on tooth development and, 48
prostaglandin $E_2$ effects on gene expression in, 567
three-dimensional cultures of in vitro and in vivo, 718
vascular endothelial growth factor effects on chemotactic migration, 472
**Osteocalcin**
tooth development and, 377
**Osteoclasts**
acidification pathways, during bone resorption, 533
activity, raloxifene effects on, 368
bone resorption, interleukin-18 and interleukin-12 inhibition of, 901
calcitonin, background and review, 655
differentiation, PI 3-kinase, p38, and extracellular signal-regulated kinase and, 71
formation of, bone resorption and, prostaglandin EP4 receptor antagonist effects on, 159
formation of, platelet effects, 726
generation of, 164
in lysosomal storage disease, 352
osteopontine stimulation effects on, 40
parathyroid hormone-related protein effects on tooth development and, 48
precursors, bisphosphonates actions on, 64
resorption, cimetidine preventive effects on, 131
**Osteocytes**
apoptosis, bone remodeling and, 2
density in aging subjects during bone remodeling, 859
**Osteogenesis**
distraction, growth hormone effects on callus formation, 117
progression of, in vivo, 718
**Osteogenic cells**
bisphosphonate suppression of bone resorption and, 64
**Osteoinduction**
bone wound healing, osteoinductive signals and bone morphogenetic protein-2, 26
**Osteoinductive signals**
bone morphogenetic protein-2 and, 26
**Osteolysis**
periprosthetic, pressure and particles in macrophage activation and, 171
**Osteomyelitis**
pathogenesis, *Staphylococcus aureus* collagen adhesin contribution to, 275
**Osteonecrosis**
marrow fat cell changes in, 185
**Osteonectin**
tooth development and, 377
**Osteopenia**
cimetidine preventive effects on, 131

glucocorticoid-induced, histomorphometry, tomography, and biochemical marker analysis, 924
granulocyte colony-stimulating factor induction of, vitamin K2 preventive effects, 880
**Osteopetrosis**
infantile malignant, *TCIRG1* gene mutations in, 436
malignant infantile, macrophage-colony-stimulating factor and NF-κB and, 85
**Osteopontin**
posttranslational modifications, bone resorption effects, 40
**Osteoporosis**
age for prevention after menopause, 754
antiresorptive therapy effects on fractures in, Perspective, 14
bisphosphonate and estrogen receptor effects on bone mineral density recovery in, 195
fracture, 10-year risk of, screening strategies and, 251
ibandronate effects on bone mass/turnover in, 320
in men, medical care costs, 631
postmenopausal, nandrolone decanoate and ovariectomy effects, 492
prevention of, modifiable determinants of bone status in young women, 416
raloxifene effects on osteoblast and osteoclast activity and, 368
trabecular bone loss, mechanical consequences and treatment of, 404
**Osteoprotegerin**
during glucocorticoid treatment in chronic glomerulonephritis, 853
RANKL and, regulation by gravity, 553
**Osteosarcoma**
2-methyoxyestradiol effects on interferon gene expression and apoptosis in, 393
**Osteosclerosis**
myelofibrosis and, case reports and literature review, 498
**Osteotomy**
healing, growth factors acceleration of, 144
**Otosclerosis**
genetic heterogeneity in, 624
***OTSC1* gene**
genetic heterogeneity in otosclerosis and, 624
**Ovariectomy**
bone loss after, cimetidine effects, rats, 131
bone loss induced by, vitamin K supplementation effects, rats, 897
bone mineral composition effects, monkeys, 492
bone-implant integration and, 131
cathepsin K effects on bone resorption after, 746
polycyclic aromatic hydrocarbons in cigarette smoke effects on bone loss after, 917
trabecular bone microstructure changes caused by, 594

**p38**
osteoclast differentiation and, 71
**P130 Cas**
fluoroaluminate and, in osteoblasts, 99
**Paget's disease of bone**
clinical severity of, 399
geographic variations in occurrence, Letter, 649
**Parathyroid hormone**
mid-region fragments, anabolic effects on skeletal tissues, 78
RGS-2 expression and, in neonatal osteoblasts, 677
**Parathyroid hormone-related protein**
breast cancer metastasis to bone and, 670
tooth development effects, 48
**Periodontal ligament**
cementifying fibroma cell line establishment, 712
**Periodontal ligament cells**
mechanical strain effects on IL-1β actions and, 547
**pH homeostasis**
osteoclast acidification during bone resorption and, 533
**Phosphatidylinositol 3-kinase**
osteoclast differentiation and, 71
**Phospholipase C-γ1**
calcium-sensing receptor-mediated activation of, 559
**Physical activity**
bone mineral density effects, adolescents, 792
questionnaire validation, mechanical strain effects on bone mass measurement, 799
**Platelets**
osteoclast formation and, 726
**Poly(2-hydroxyethyl) methacrylate**
alkaline phosphatase and, osteoblast adherence on calcospherites and, 152
**Prostaglandin $E_2$**
gene expression in osteoblastic cells and, 567
**Prostaglandin estradiol**
osteoclast formation and bone resorption effects, 159

**Radius**
adaptation to unilateral use in tennis playing, 619
distal, microfinite element analysis of failure load in, 842
**Raloxifene**
bone mineral density after 1 year after discontinuation of, postmenopausal women, 599
osteoblast and osteoclast activity and, 368
**RANKL**
activity, Cbfa1 effects on, in stromal/osteoblastic cells, 453
osteoprotegerin and, regulation by gravity, 553
**Regulator of G-protein signaling-2**
parathyroid hormone induction of, in neonatal osteoblasts, 677
**Renal failure**
corticosteroid therapy for, growth plate alterations and, 692
**Rheumatoid arthritis**
bone destruction in, NF-κB and tumor necrosis factor-α effects, 340
**Rolipram**
bone formation by bone morphogenetic protein and, 589

**Secular changes**
Paget's disease of bone, clinical severity of, 399
**Skeletal bone**
mechanical properties, in zebrafish, 541
**Smooth muscle actin**
expression in connective tissue cells in fracture healing, 738
***Staphylococcus aureus* collagen adhesin**
contribution to osteomyelitis pathogenesis, 275
**Stem cells**
characteristics of, 699
**Stromal cell differentiation**
cortisol and bone morphogenetic protein-2 effects on, 685

***TCIRG1* gene mutations**
in infantile malignant osteopetrosis, 436
**Thyroid hormones**
mast cell distribution in bone marrow and, 259
**Tissue engineering**
biomimesis role in, 810
**Tomography, microcomputed**
glucocorticoid-induced osteopenia, 924
**Tooth development**
osteocalcin, osteonectin, and dentin sialophosphoprotein in, 377
parathyroid hormone-related protein and, 48
**Trabecular bone**
femoral mechanical strength and, bone properties at lower limb and distal radius as predictor of, 207
loss of, mechanical consequences and treatment of, 404
mechanical strain anabolic to, 445
microarchitecture, surface curvatures of, 191
microstructure changes caused by ovariectomy and neurectomy, 594
remodeling, bone vascularization and, 604

Bone Vol. 30, No. 6
June 2002:954–960

static histomorphometry, comparison with iliac crest, 267
turnover during type II collagen-induced arthritis, mice, 872
zone-dependent loss of, 664
**Transforming growth factor-β1**
17β-estradiol production regulation by $1\alpha,25(OH)_2D_3$ and, 48
osteotomy healing accelerative effects, 144
**Tumor**
bone density and strength effects, ibandronate effects, 300
**Tumor necrosis factor-α**
bone destruction in rheumatoid arthritis and, 340

**Ulna**
adaptive response to mechanical strain, growth rate effects, 314
**Ultrasound**
quantitative, cancellous bone characterization using backscatter measurements, 229

**Vascular endothelial growth factor**
chemotactic migration in osteoblasts, 472
**Vertebral body**
bone strength of, vertebral static histomorphometry predictions of, 502
cancellous bone microarchitecture, 829
static histomorphometry, comparison with iliac crest, 267
zone-dependent trabecular bone loss, 664
**Vertebral fracture**
antiresorptive therapy effects in osteoporosis, Perspective, 14
bone mineral density measurement by quantitative computed tomography and DXA in, 247
**Vitamin D**
status in adolescents and adults, 771
**Vitamin $D_3$**
bone allograft transplantation and, 422
**Vitamin K**
ovariectomy-induced bone loss and, 897
**Vitamin K2**
granulocyte colony-stimulating factor-induced osteopenia prevention and, 880

**Women**
modifiable determinants of bone status, young women, 416
**Women, postmenopausal**
ankle fracture predictors in, 238
antiresorptive therapy effects on fractures, Perspective, 14
back muscle strength effects on incidence of vertebral fractures in, 836
calcium-sensing receptor gene A986S polymorphism and bone mineral density in, 849
fracture risk, type I collagen gene polymorphism and, 223
IL-6 expression in bone samples, 217
supporting muscle changes after hip fracture, 325
**Wound healing**
osteoinductive signals and bone morphogenetic protein-2, 26
